

# This week in Reception

## September 21<sup>st</sup> – 25<sup>th</sup> 2020

### P.S.E.D.

We have now introduced all of the children to our classroom rules, our outdoor rules and our school values of Respect, Responsibility and Resilience. See what your child can tell you about them.

### C.L.

This week we have listened to lots of stories about friends. The children are also learning to put up their hand when they have something they want to say about a story.

### P.D.

The children have had their first lesson of P.E. this week. Please look at the photographs on the Reception blog on the school website.

### Literacy

This week we shared Oxford Reading Tree big books – “At School” and “The Lost Teddy”. All the children have drawn a picture from the lost teddy story and talked about what happened. In phonics we have played an I-spy game to develop children’s blending skills. We have also made silly soup with ingredients beginning with ‘s’.

### Mathematics

As well as counting how many children are in Reception each day, we use every opportunity to count the things around us. We have used our knowledge of numbers and counting skills to play an dice/action game.

### U.W.

We have learned about the different people in school who help us. We have learned their names and talked about the things they do that help us. We have also looked at some of the things they use to do their jobs.

### E.A.D.

There have been lots of opportunities for children to use their creative skills and imagination in a variety of different activities, including role play, small world, chalk art etc. Everyone has completed an illustration for “The Lost Teddy”.
