

This week in Nursery

10th May, 2021

P.S.E.D.

The children are becoming more confident in asking questions and explaining their own knowledge. We encourage them in this during carpet time and free flow.

C.L.

We have enjoyed listening to the story 100 Cats by Michael Whaite. The children answered questions about what was happening in the story and said which was their favourite cat and why.

P.D.

The children thoroughly enjoyed using the large apparatus in the hall and thought of different ways to move across the equipment. It is wonderful to see them grow in confidence throughout our PE lessons.

Literacy

Our new letter for this week was 'x'. We thought of lots of different words that had an 'x' in. We also played I-spy where we had to blend the sounds in words to guess the correct answer, e.g. 'b-a-t' makes 'bat'.

Mathematics

This week in mathematics we were revising our knowledge of 2D shapes. We played 'shape detective' where we had to guess what shape was being described. We also had a 'shape hunt' around Nursery. We found our clock was a circle and our whiteboard was square.

U.W.

This week in Nursery we have been describing different animals. We thought about which animals have paws, whiskers, droopy ears, scales, feathers and a long tail.

E.A.D.

The children enjoyed playing in our 'dinosaur swamp' this week. They have also enjoyed using an animal stencil and sponge to paint their favourite animal.

Special Notices:

Class photos will be on Thursday, May 20th. We will be moving PE for our afternoon children to the Wednesday so children can come to school in their uniform on the Thursday.

Thank you
