

This week in Reception

June 14th - 18th 2021

This week we started our imagination trip around the world!

This week in guided groups the children have written a special message for a special card. They have also written their details in their passports ready for international travel!

Children have used their mathematical skills in a variety of everyday contexts. They have also gone back to basics and learned to count to 10..... in Welsh, thanks to Mr. Taylor!

Other Areas of Learning

The children started their imagination trip in this wonderful City of Coventry! They looked at some local landmarks and talked about the story of Lady Godiva. Lots of the children were excited to watch a clip of the clock in Broadgate!

Then we travelled by car to Wales where we met Mr. Taylor, who taught us some Welsh, including numbers to 10. We learned about the flag, Welsh symbols, Mount Snowdon, mining, castles, Welsh cakes and llanfairpwllgwyngyllgogerychwyrndrobwlllantysiliogogoch!

Next, by steam train to Scotland! The children tried shortbread biscuits and sword dancing, but not at the same time! They learned about Ben Nevis, Scottish wildlife, traditional dress and we also made Loch Ness Monsters out of clay.
