

This week in Nursery

11th January, 2021

P.S.E.D.

The children enjoyed exploring our mystery box where there were lots of things hidden. They were very brave at putting their hands inside to feel what might be in the box. Some of the things included mud, marshmallows and baked beans!

C.L.

The children loved listening to the story, 'The flying bath' by Julia Donaldson. We then discussed whether they thought their bath at home had wings and where they would like to fly to!

P.D.

This half term we are taking part in 'Real PE' lessons. The children were practising their balancing skills and, amongst other things, tried really hard to walk along a line forwards and backwards.

Literacy

We have learnt our new letter sound, 'o'. We also played a game where we were practising blending sounds in words, e.g. p-i-g makes 'pig', d-o-g makes 'dog', for example.

Mathematics

This week we have been discussing who is the tallest and who is the smallest. We measured all of the children next to the height chart and discovered how tall we were. We also compared the heights of three different towers of cubes.

U.W.

The children have been fascinated with the giant map of the world, in our 'travel agents' and have spoken about where they would like to travel and what they would like to see. The North Pole was a very popular choice!

E.A.D.

The children have enjoyed exploring mixing colours this week and have been amazed by some of the colours they have made!

Special Notices

Many thanks for your continued support in these challenging times!

Thank you
