

This week in Reception

June 21st - 25th 2021

This week we have been in Europe!

Children have practised reading, writing and phonic skills in their guided groups this week. This will be the last week for guided groups. Make sure you do regular reading practice at home.

Children have used their mathematical skills in a variety of everyday contexts. They have also gone back to basics (again!) and learned to count to 10..... in French this time!

Other Areas of Learning

We have now travelled to the EU!
After a fairly smooth ferry ride across the Irish sea, our first stop was the Emerald Isle. We looked at landmarks North and South of the Irish border, heard stories about a saint and a giant, tasted potato cakes and finger painted shamrocks.

Then, quickly returning to the UK to catch the Eurostar, we arrived in France. Inspired by the Eiffel Tower, the children had an opportunity to design their own towers, printing with straight lines and metallic paint.

There were very mixed reactions to the delicious French brie they tasted!

Both classes then ventured by coach to Eastern Europe, making a stop in Poland to weave some traditional poppies.

Then RSG took a detour to Hungary, while RKG made a very quick stop in Slovakia.
