

This week in Reception

April 4th – 8th 2022

This week our learning has focused on musical performance and EASTER!

Literacy

This week, as well as continuing to revise everything, ready to start Phase 4 next term, we have had a busy week. Everyone wrote a message in their Easter cards, as well as writing about the wonderful Nursery rhymes variations played by Mr. Fardon.

Mathematics

This week Maths Mastery included looking at number 8, extending our staircase of numberblocks! We have developed our knowledge and understanding of greater/more/bigger and fewer/less/smaller when comparing numbers and quantities. We enjoyed the numberblocks playing 'peek-a-boo!', where a number that is fewer or smaller can hide behind a greater, or bigger number. You could make paper towers or towers of blocks to play this at home.

Other Areas of Learning

Reverend Jon Taylor came to assembly this week. He talked to the children about Easter, explaining why it is an important celebration for Christians, and how they celebrate it. We enjoyed singing some songs to his guitar – musicians really are everywhere!! We have also watched the Easter story in LEGO on YouTube!

Children used their creative talents to make an egg for their Easter cards. We hope you like them!

We have listened to some lovely stories about 'bunnies' and eggs and had a film afternoon treat!

We recorded our Musical Performance on Monday. The children sang and played their wonderful instruments, showing their huge musical talents! We really hope you enjoyed watching it on Google Classroom.
