

# This week in Reception

## June 28<sup>th</sup> – July 2nd 2021

This week it's been Greece, then into Asia!

We shall be collecting in home reading books and diaries from Monday. You can keep working with your child on letters and sounds and tricky words etc. using the resources and ideas on Google Classroom.

There are some suggestions on Google Classroom for activities to keep your child's mathematical skills ticking over!

### Other Areas of Learning

We spent a very wet day in Greece on Monday. We couldn't do our Sports Day but we did play a game, talking about and then spotting the missing Olympic Sports. We even watched some sprinting, javelin and pole vaulting!! The children designed Greek urns and heard stories about some exciting (and horrible) mythical creatures!

We had very mixed reactions to the olives we tasted.

Travelling by magic Persian carpets we then arrived in India. We have learned about some famous landmarks, transport, animals, clothes, food...and more! There have been lots of creative opportunities in India, making rangoli patterns, peacocks, tigers etc.

**\*\*Thanks to Miss Chatha's Grandma for making pakora for the children to try!\*\***

After crossing the Himalayas on our elephants, we ended the week in China. Here we learned about the Great Wall of China, the wildlife including pandas, and the many uses of bamboo!
