

# This week in Nursery

22<sup>nd</sup> February 2021

## P.S.E.D.

The children continue to learn how to share and take turns fairly. They are very proud of themselves when they are rewarded a sticker or postcard for being kind to their friends.

## C.L.

The children have thoroughly enjoyed playing in our new role play area which is a castle. They have had fun dressing up as knights, dragons, kings and queens. It's great to hear the language they are using, in their play.

## P.D.

We have enjoyed another 'real PE' lesson on the theme of pirates. The children have had fun trying to balance on one leg, like a pirate and chasing 'canon balls' too.

## Literacy

Our new letter for this week is 'h'. We have thought of lots of items beginning with 'h'. The children have also enjoyed taking part in a rhyming quiz.

## Mathematics

This week in mathematics we have been practising our counting skills by counting all the way to 20. We have also tried hard to order numbers by putting numbered dragons in the correct order. Finally we have also practised writing our numbers too.

## U.W.

The children have thoroughly enjoyed learning all about what it was like to live in a castle a long time ago. We thought of who lives there and what their different roles were including a king, queen, knight, cook and blacksmith.

## E.A.D.

The children have enjoyed learning all about dragons and have discussed what they might look like and where they might live. They have also all had a go at painting their own dragon.

## Special Notices:

Thursday, March 4<sup>th</sup> is World Book Day. We would therefore like all the children to come to Nursery dressed as a character from a story. We are also hoping to zoom all the children, who are still at home, and to give them a wave!
