

This week in Nursery

25th January, 2021

P.S.E.D.

The children continue to enjoy playing with each other and sharing their toys. They also enjoy receiving a post card or sticker when they have worked hard or are kind to their friends.

C.L.

The children loved listening to the stories, 'Herbie's Big Adventure' and the 'selfish crocodile'. They answered questions about the story and predicted what might happen next.

P.D.

The children continue to enjoy their weekly 'real' PE sessions where they have been practising the skill of walk forwards and backwards whilst balancing on a line.

Literacy

The children were introduced to Metal Mike, the robot, where they practised talking like him. So Metal Mike would say, 'c-a-t' for 'cat' and 'd-o-g' for 'dog'. We have also learnt our new letter sound, 'e'.

Mathematics

The children have been introduced to addition this week. They counted out two groups of objects and then put them together to find out what the total was. We also learnt what a number sentence is and what the different symbols mean, '+' and '='.

U.W.

This week we carried out an experiment. Three of our plastic bears were frozen in some ice. The children had to try and figure out how we could get them out. We put one in the sun, one in warm water and with the other, we used a rolling pin to hit the ice.

E.A.D.

The children enjoyed painting a picture of Herbie the hedgehog, from our story. They have also enjoyed playing with our play dough.

Special Notices

The children have some homework this week. We would like them to bring in a photograph of somewhere they have been. E.g. on a holiday, a trip to the zoo or park. Please could we have the photo by February 3rd.

Thank you
