

This week in Nursery

30th November, 2020

P.S.E.D.

The children were really behaved for filming our Christmas concert and put on a fantastic performance. We will finish filming next week.

C.L.

We enjoyed the story 'Santa's special letter'. The children were fantastic at listening and are beginning to share what they understand about the story. They also had a go at predicting what they thought would come next.

P.D.

The children have been making lots of different Christmas craft which has meant they have needed to use scissors. They are beginning to use scissors with increasing skill and control.

Literacy

Some of the children have chosen to write letters to Santa. We continue to encourage them to practise writing their names.

Mathematics

We have been learning all about 3D shapes this week. The children have explored a cone, a sphere, a cube and a cylinder. The children even made a Christmas tree using a cone and cylinder. I wonder if they can spot any of these shapes at home?

U.W.

The children continue to enjoy talking about Christmas and some of the children have told us all about how they have met Santa.

E.A.D.

We have had fun this week making penguins and Christmas trees! The children have worked hard cutting and sticking and adding sequins, glitter and cotton wool.

Special Notices

Don't forget, we have arranged a Christmas party for the children on Wednesday, December 16th. Children can come to Nursery dressed in their party clothes. We hope you will be able to purchase our Christmas concert dvd! The children have worked so hard learning all the words to the songs.
