

This week in Reception

March 29th – April 1st 2021

This week has been about celebrating Easter and Spring Time

In phonics this week we have continued to revise all previously taught sounds, tricky words and have introduced the words 'come' and 'some'. We are also practising reading longer words as last week (cvcc words). The children have also enjoyed their guided reading sessions. We hope they are also enjoying showing you how well they are reading with their home reading books.

We have continued to practise using counters, fingers and numberlines:

- counting on, for addition
- counting back for subtraction

Other Areas of Learning

Everybody has used their artistic talents to make a lovely Easter or Spring Time card for their families. Using only pastel colours they designed an egg and then used their developing writing skills to write a message inside.

With the lovely weather this week, we have all been enjoying outdoors a lot more! The children have been thinking about Spring and what changes happen at this time of year. They have looked for signs of Spring, including buds on trees and flowers, emerging creatures and better weather!!

We watched the Easter Story, explained through the medium of lego. It showed in a sensitive manner, how Jesus died on the cross.
