

This week in Nursery

4th October, 2021

P.S.E.D.

The children are continuing to be supported during free flow with sharing and taking turns. We talk to them about what they could do if a friend would like something they are playing with.

C.L.

We have listened to the story, 'There's a house inside my mummy' by Giles Andreae. Some of the children shared what it is like to have a baby brother or sister.

P.D.

For PE this week, the children continue to enjoy listening to a CD and moving in time to the music. They also had fun doing the hokey cokey and playing the game duck, duck, goose.

Literacy

The children have been playing lots of phase 1 games including i-spy and a listening game on the interactive whiteboard. They have also learnt the letter sound, 's'. Maybe you could find items at home beginning with 's' at home.

Mathematics

This week we have been learning to name some 2D shapes and to describe their properties. We played the game 'shape monsters' on the interactive whiteboard and we made a 'shape picture' using circles, squares, rectangles and triangles.

U.W.

This week in Nursery we have enjoyed making heart shaped cookies. After they were baked in the oven, we had fun decorating them!

E.A.D.

The children have had the opportunity to make a collage picture using different shapes. They have also enjoyed drawing pictures using pastels.

Special Notices

Thank you to all those who have bought food in, for our local foodbank. Thank you also for your continued generosity in giving a weekly £1 for our £1 pot!
